A real modern classic pairing, Garda & Rio brings a contemporary feel that complements architecture from new to old. The high gloss finish means these fitted wardrobes will transform your bedroom into a bright and airy space, and - combined with Rio drawers shown here in Italian Walnut with brown leather bar handles - bring a touch of luxury.....

GENOA

At home in a loft apartment as it is in a period property, Genoa is a contemporary modular design with simplicity at its heart. NEWLANDS

Newlands takes its design cues from the shaker movement, and is the perfect cabinetry for creating a fresh, crisp and classic bedroom haven. Specify Newlands with integrated mirrors to create an illusion of space and choose matching bed side drawers or even a fitted window seat to bring the look together.

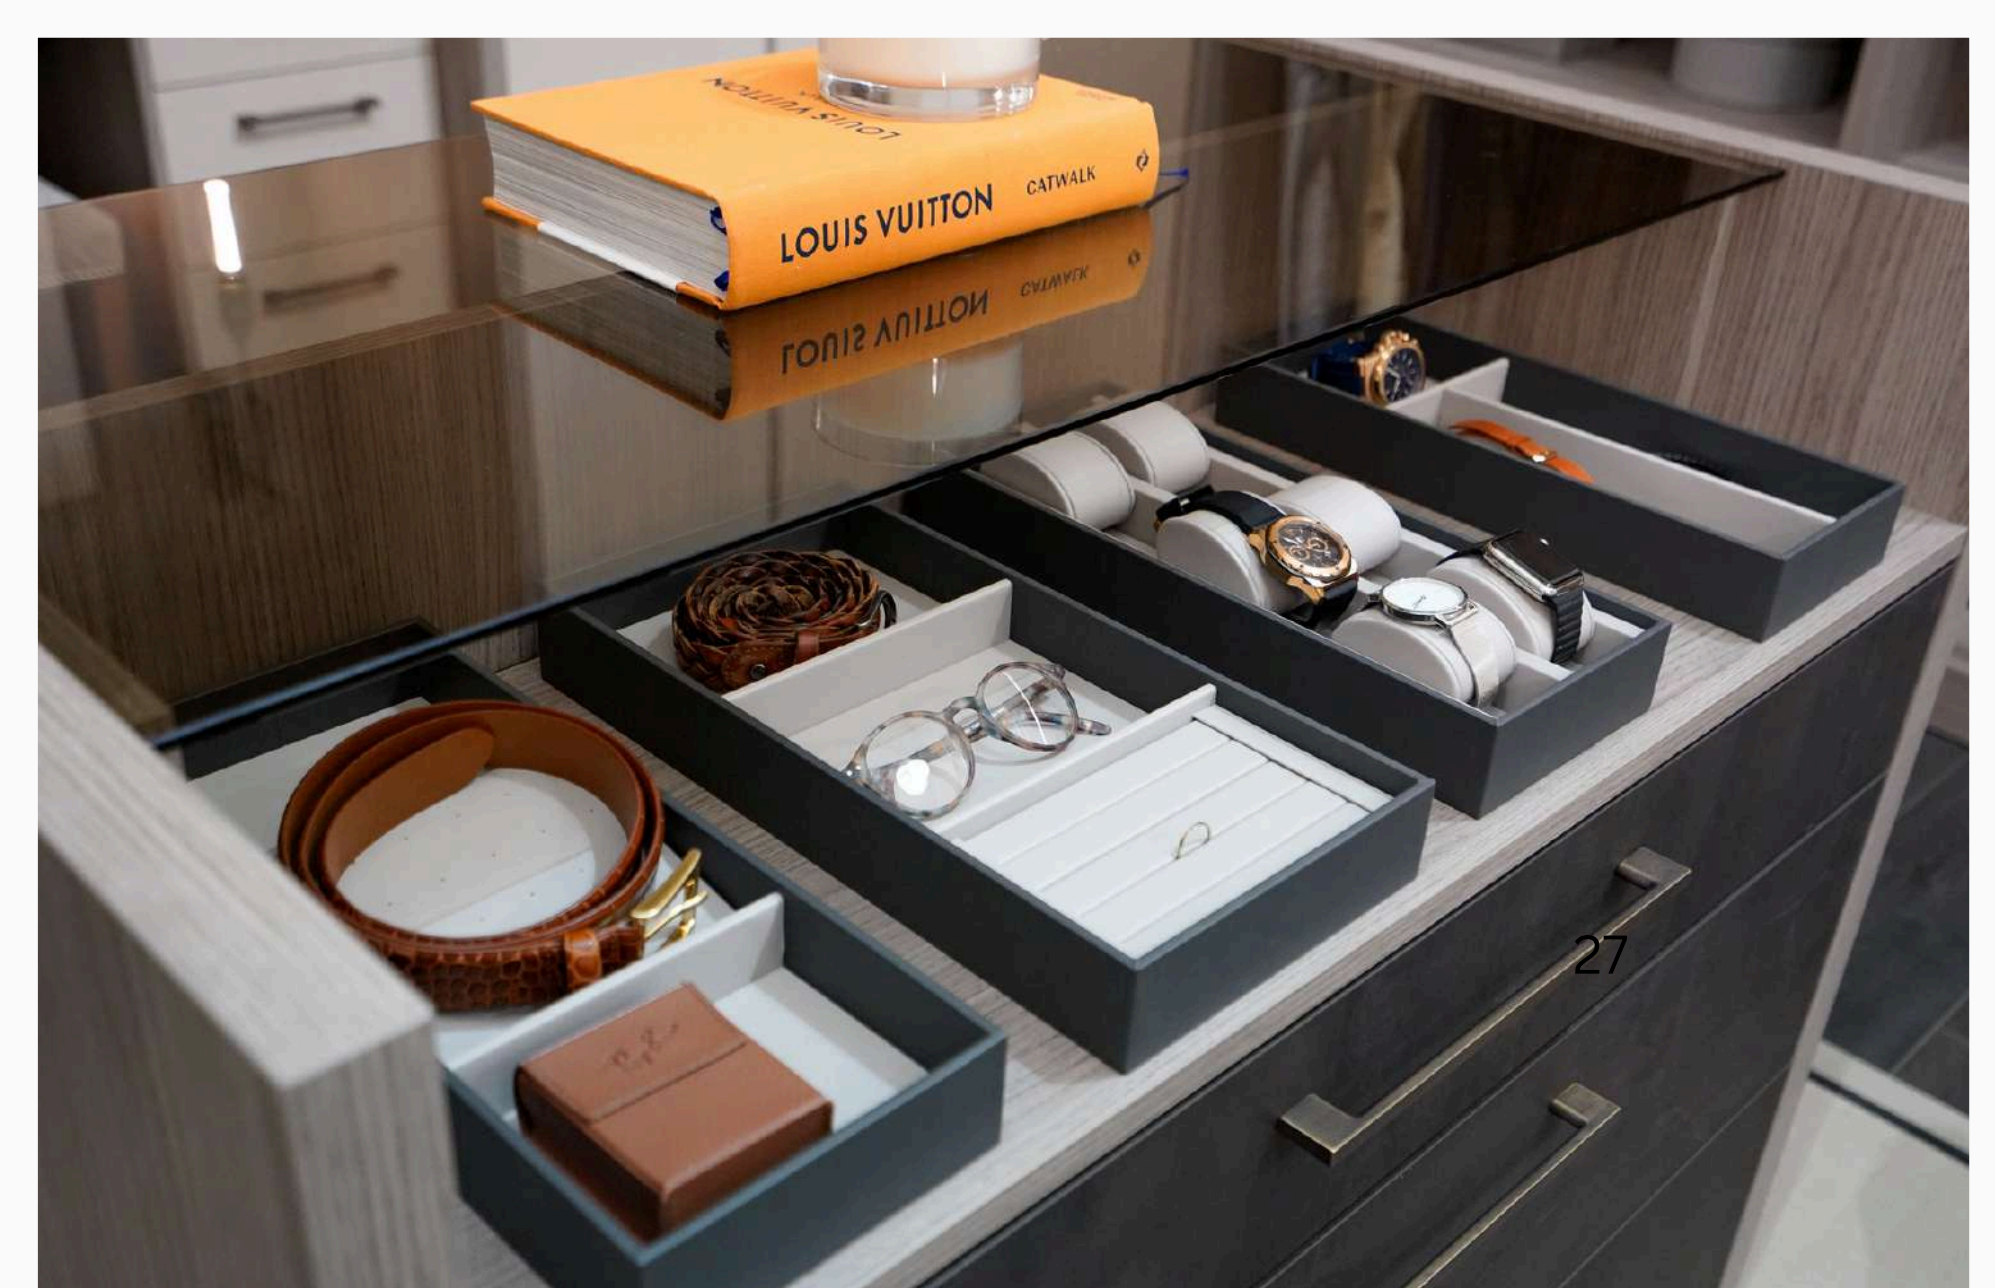

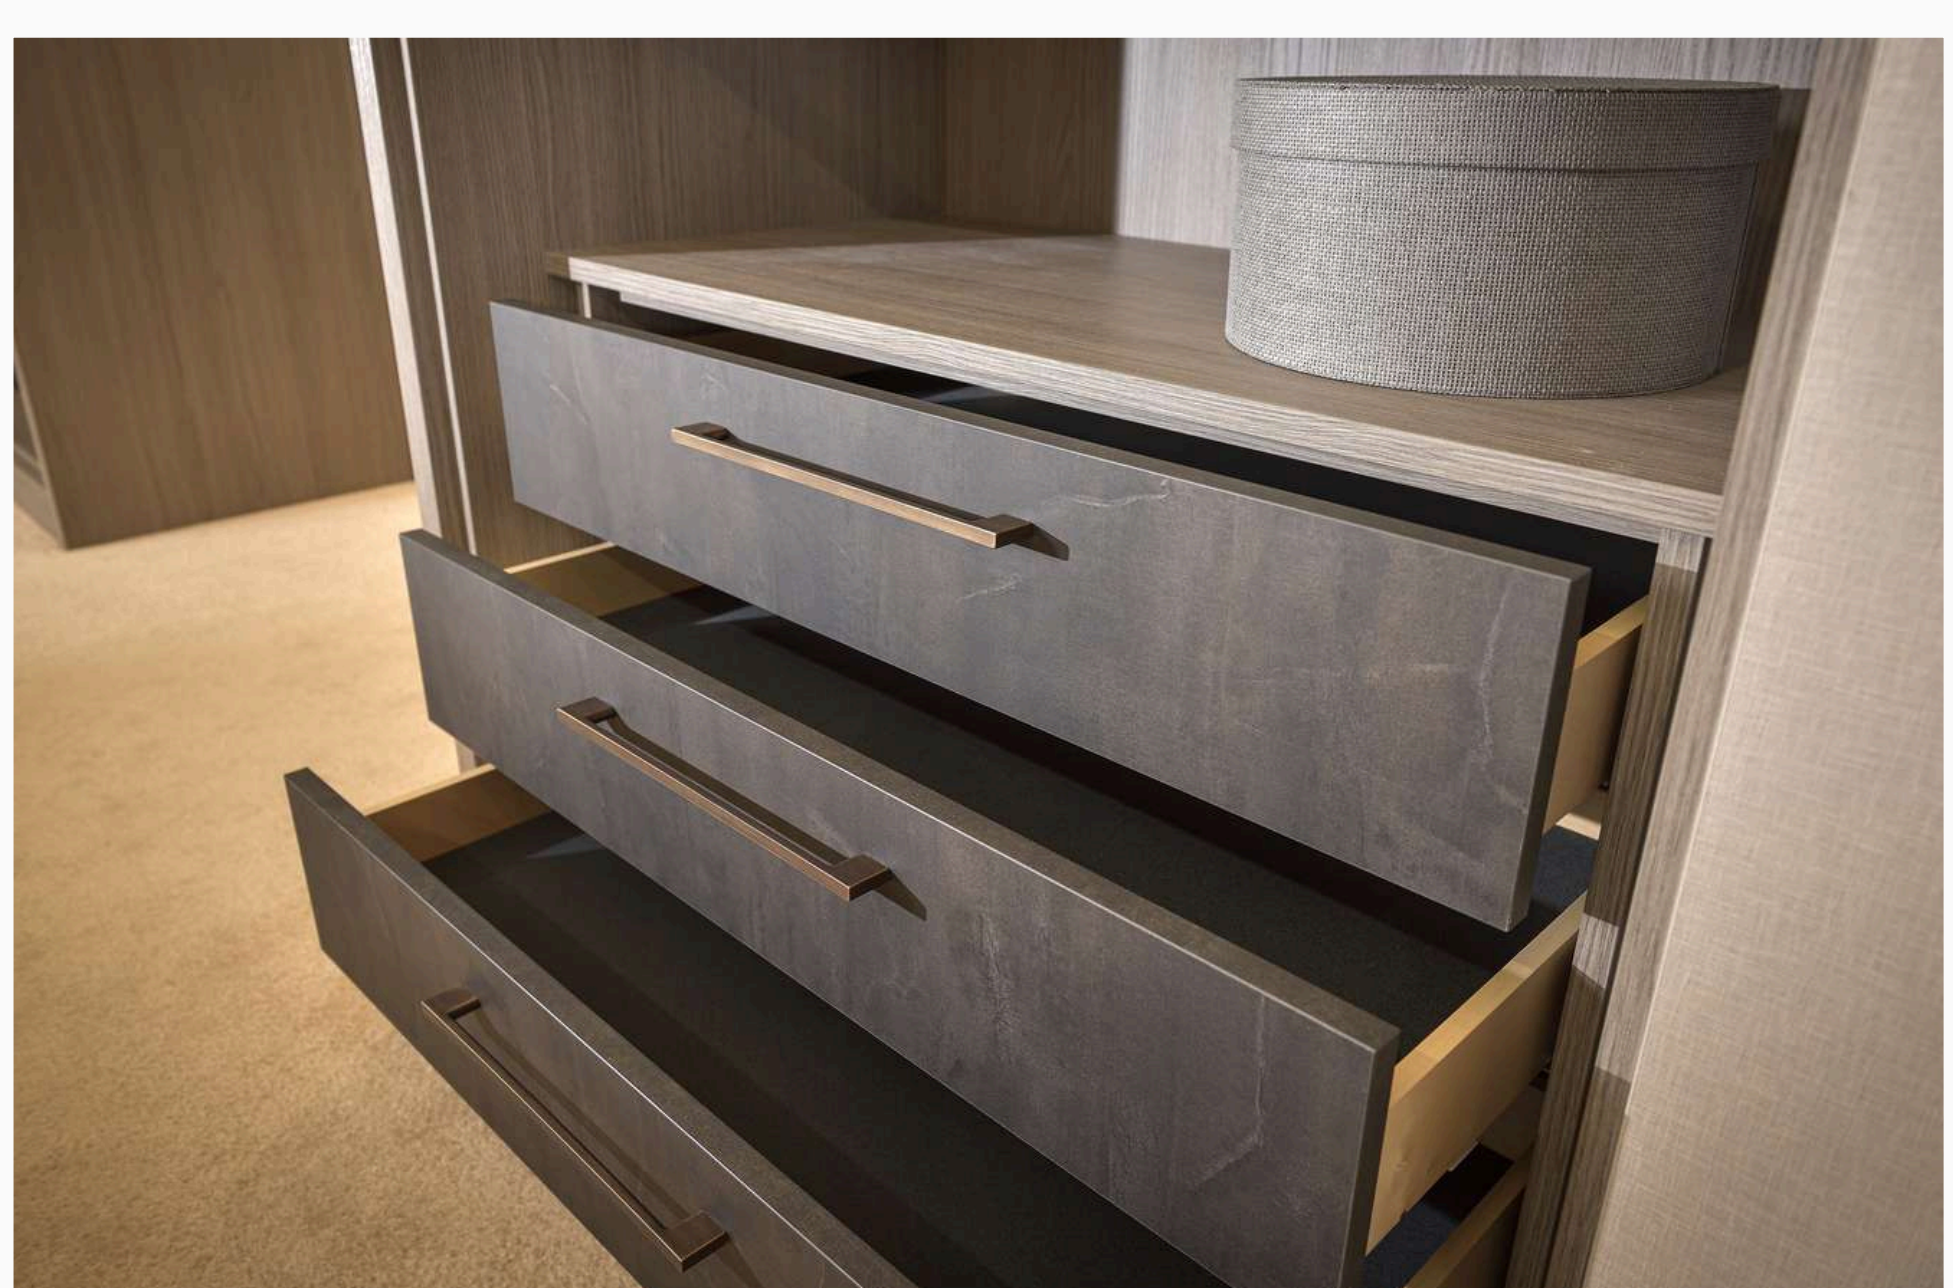

This timeless classic fitted wardrobe can be finished with a traditional plinth that perfectly complements Newlands' modern-yet-classic proportions.

“Love our new wardrobes which have made our bedroom seem so much bigger and tidier. Friendly, helpful staff in the showroom with lots to choose from”

*THE
LUDHILL
FARM
PROJECT*

An old-meets-new aesthetic is perfectly delivered in this master bedroom suite at this farmhouse project, our Mayfair cabinetry in super-matt Charcoal has been chosen to create the most stunning walk-in wardrobe.

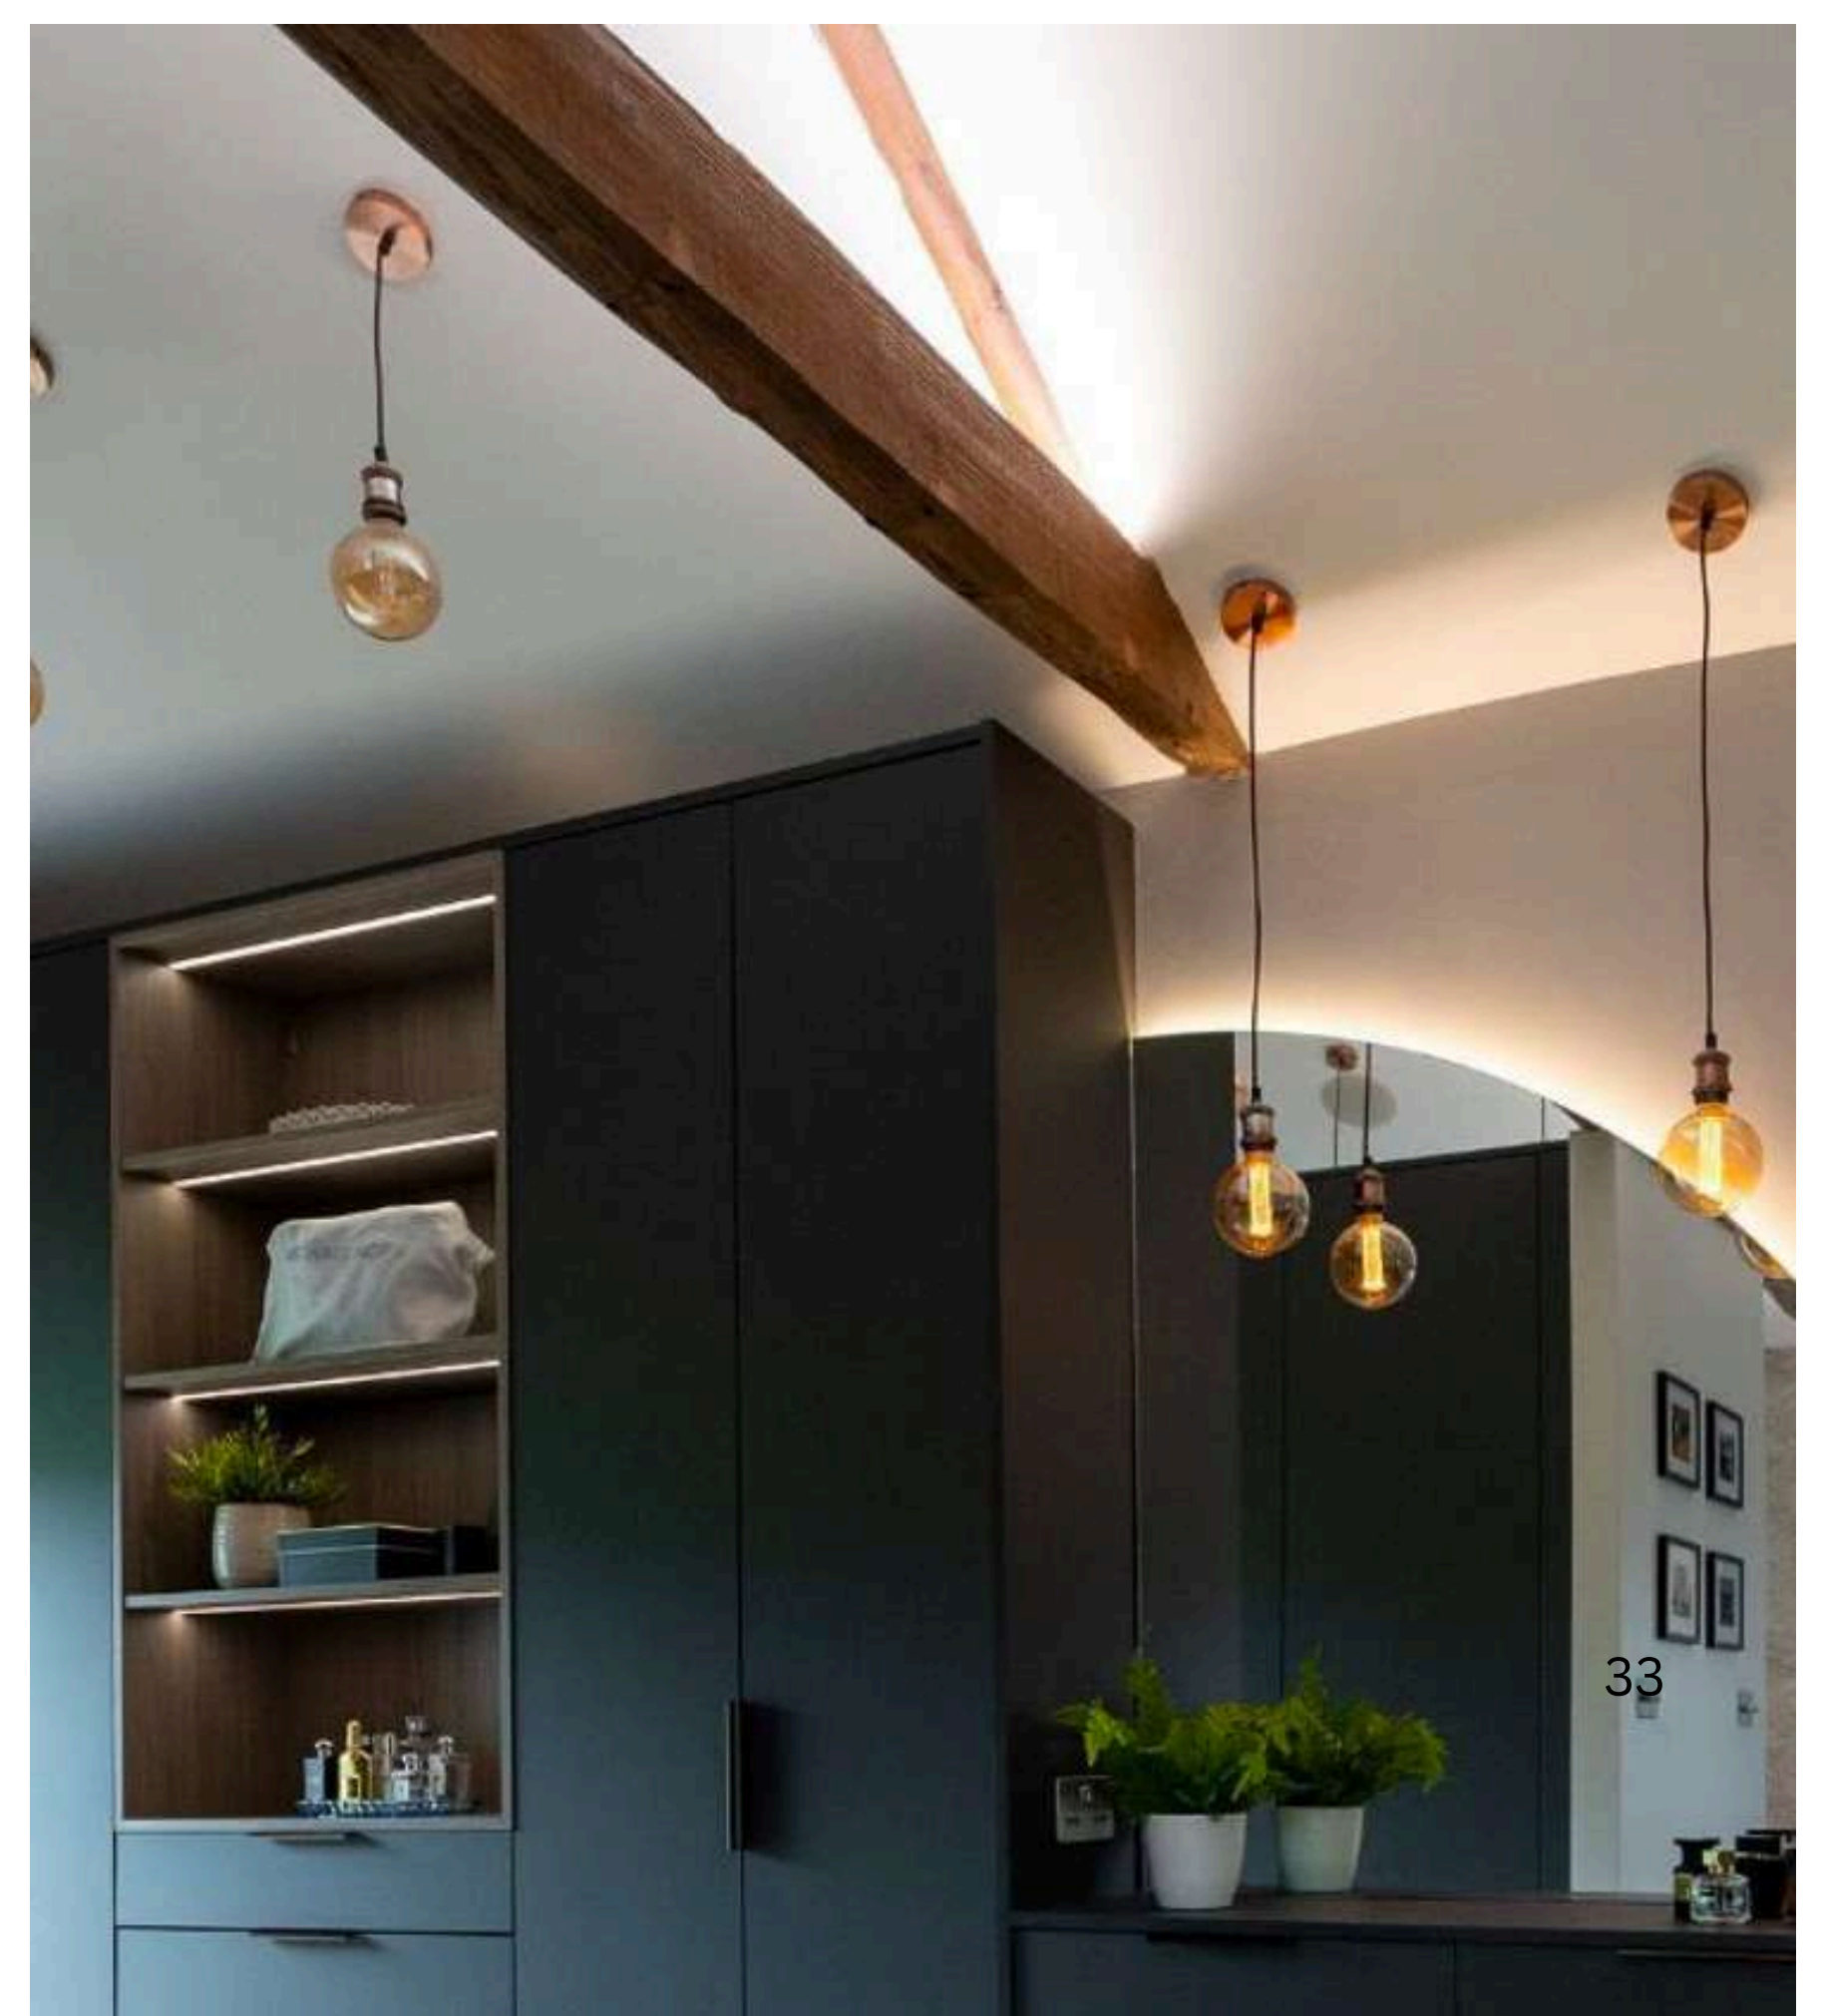

Using the cabinetry to divide the room, a modern bathroom suite with freestanding copper bath sits proudly on one side, while the second half of the space is given over to the modern fitted wardrobes.

The open plan layout of the bedroom has been incorporated into the design of the wardrobe area, with the two main cabinetry runs positioned opposite each other to create a more dressing-room like finish, complete with a floating dressing table and half circle, back-lit mirror.

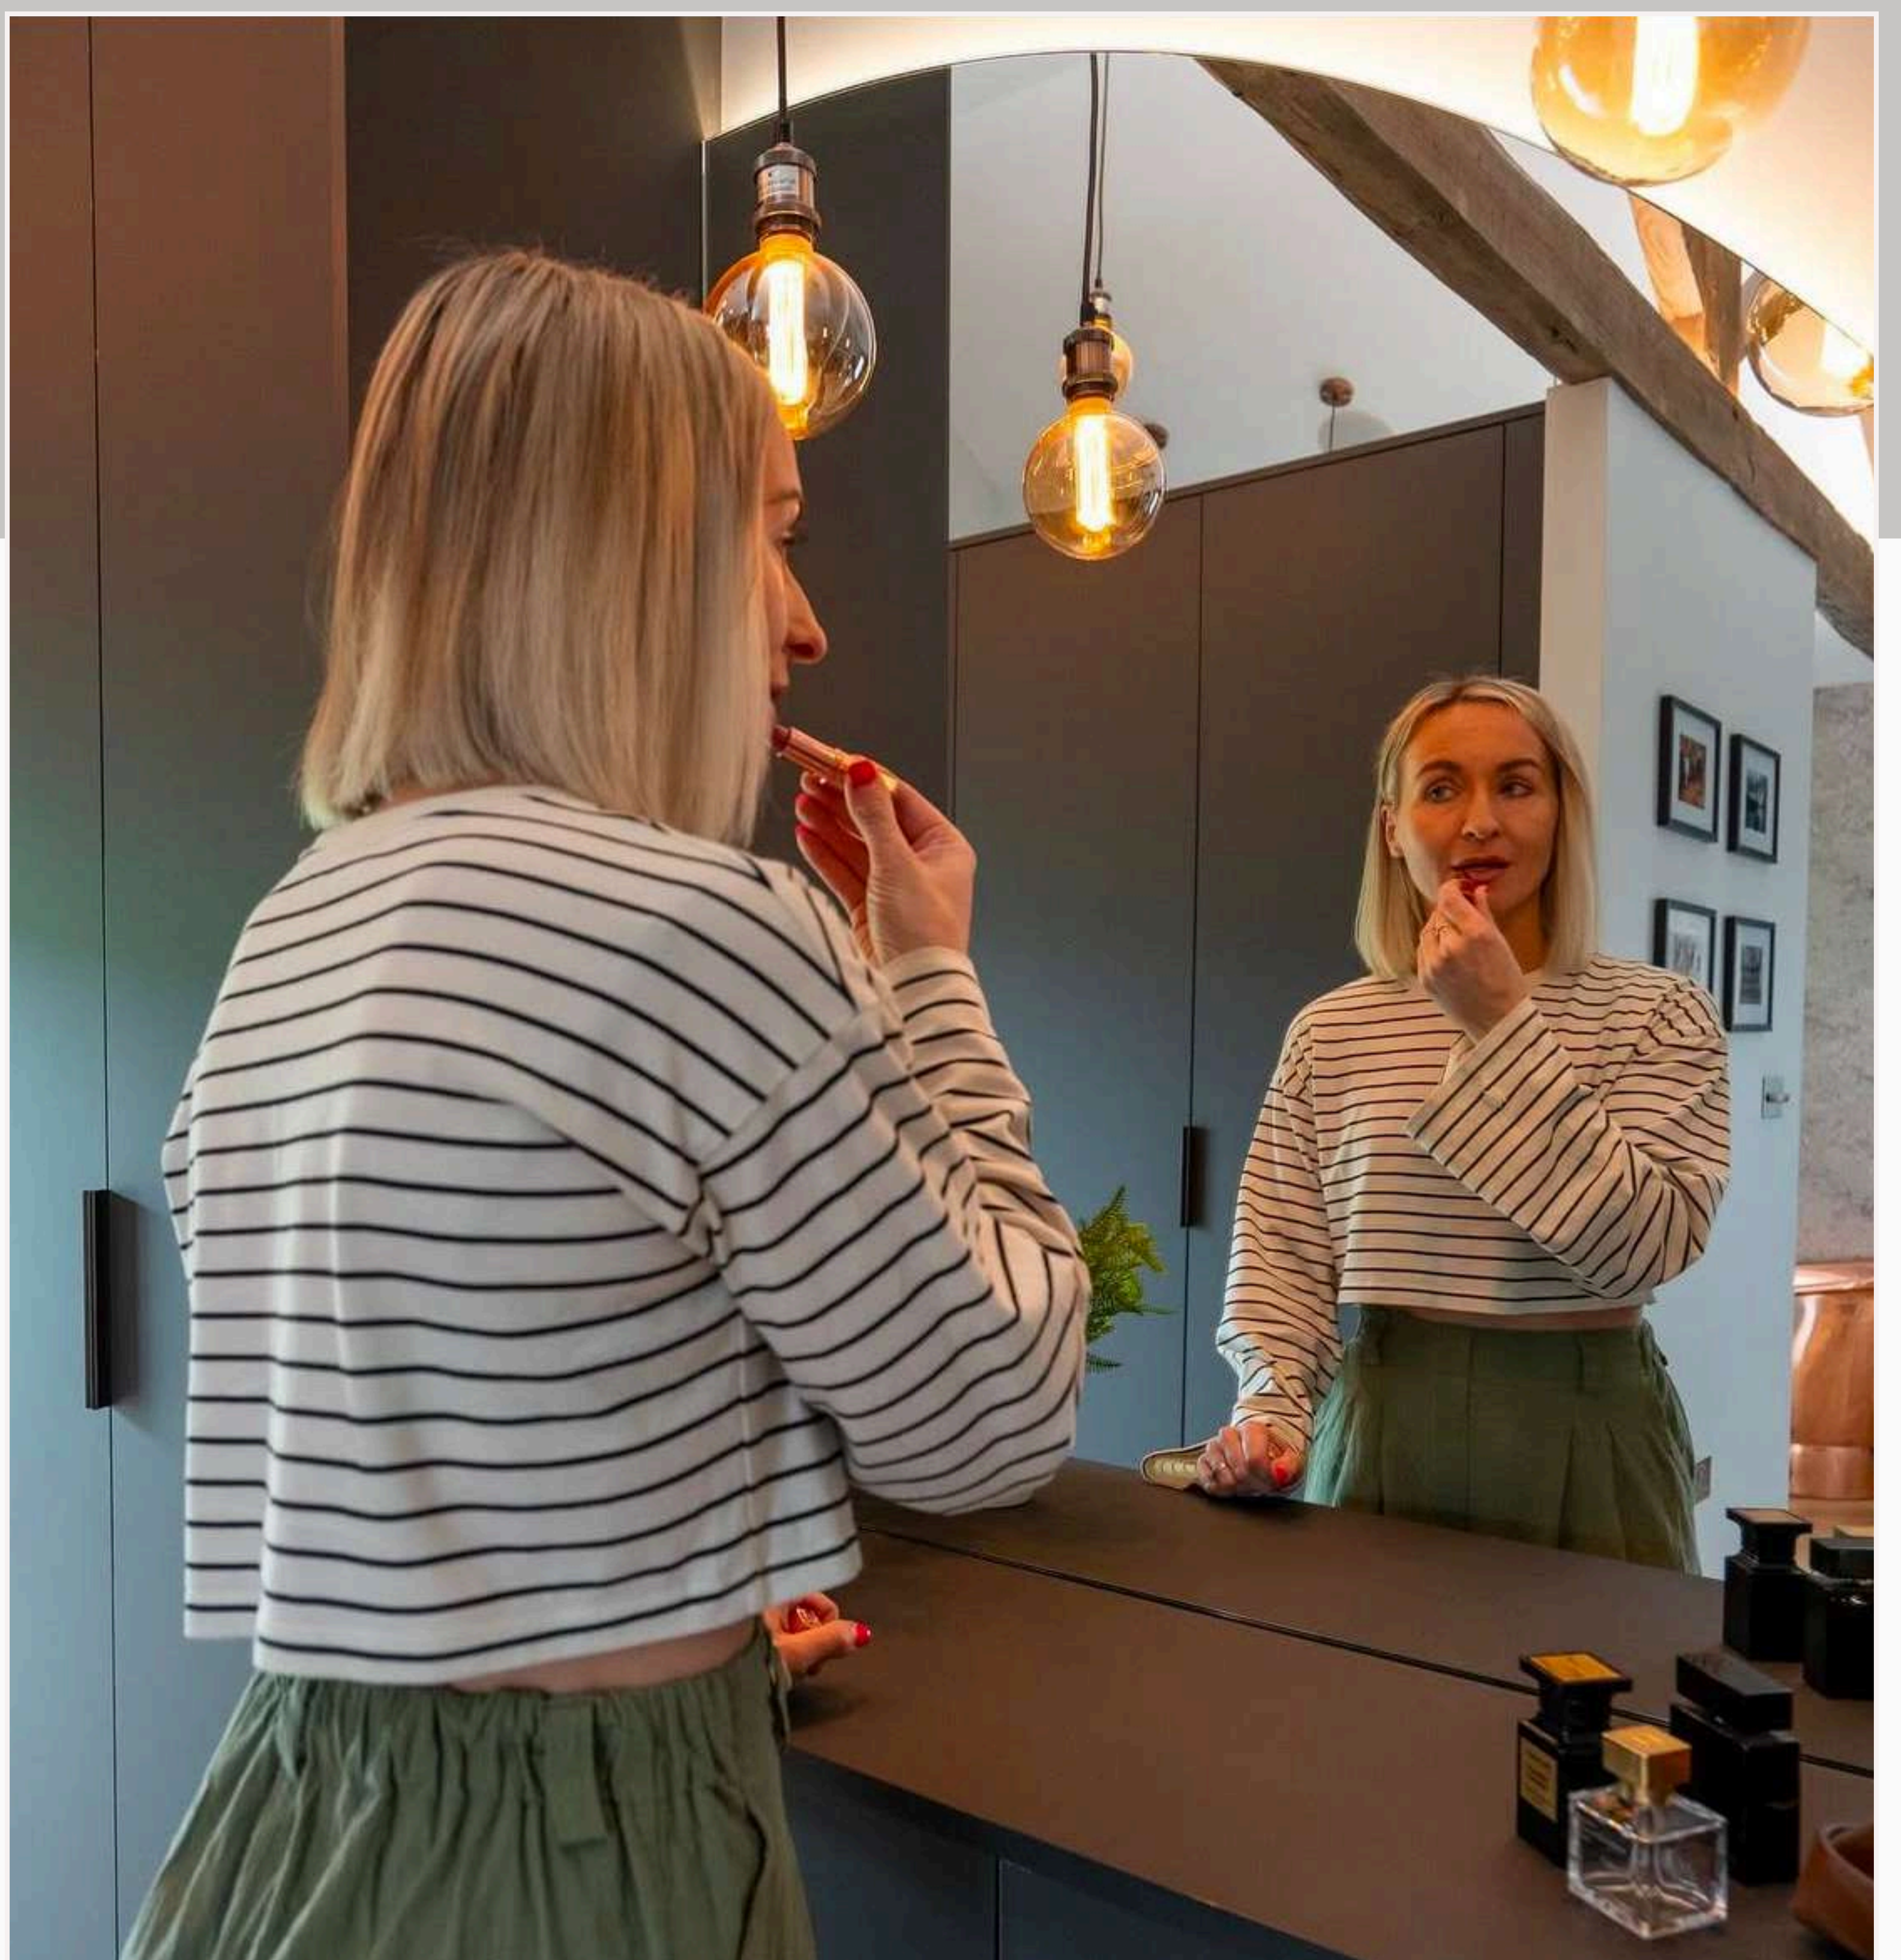

The property's beautiful feature beams have also taken centre stage in this bedroom design, with our Option-I design technology being used to manufacture the wardrobes to a precise height to line up with the top of the beams and create a seamless, elegant flow.

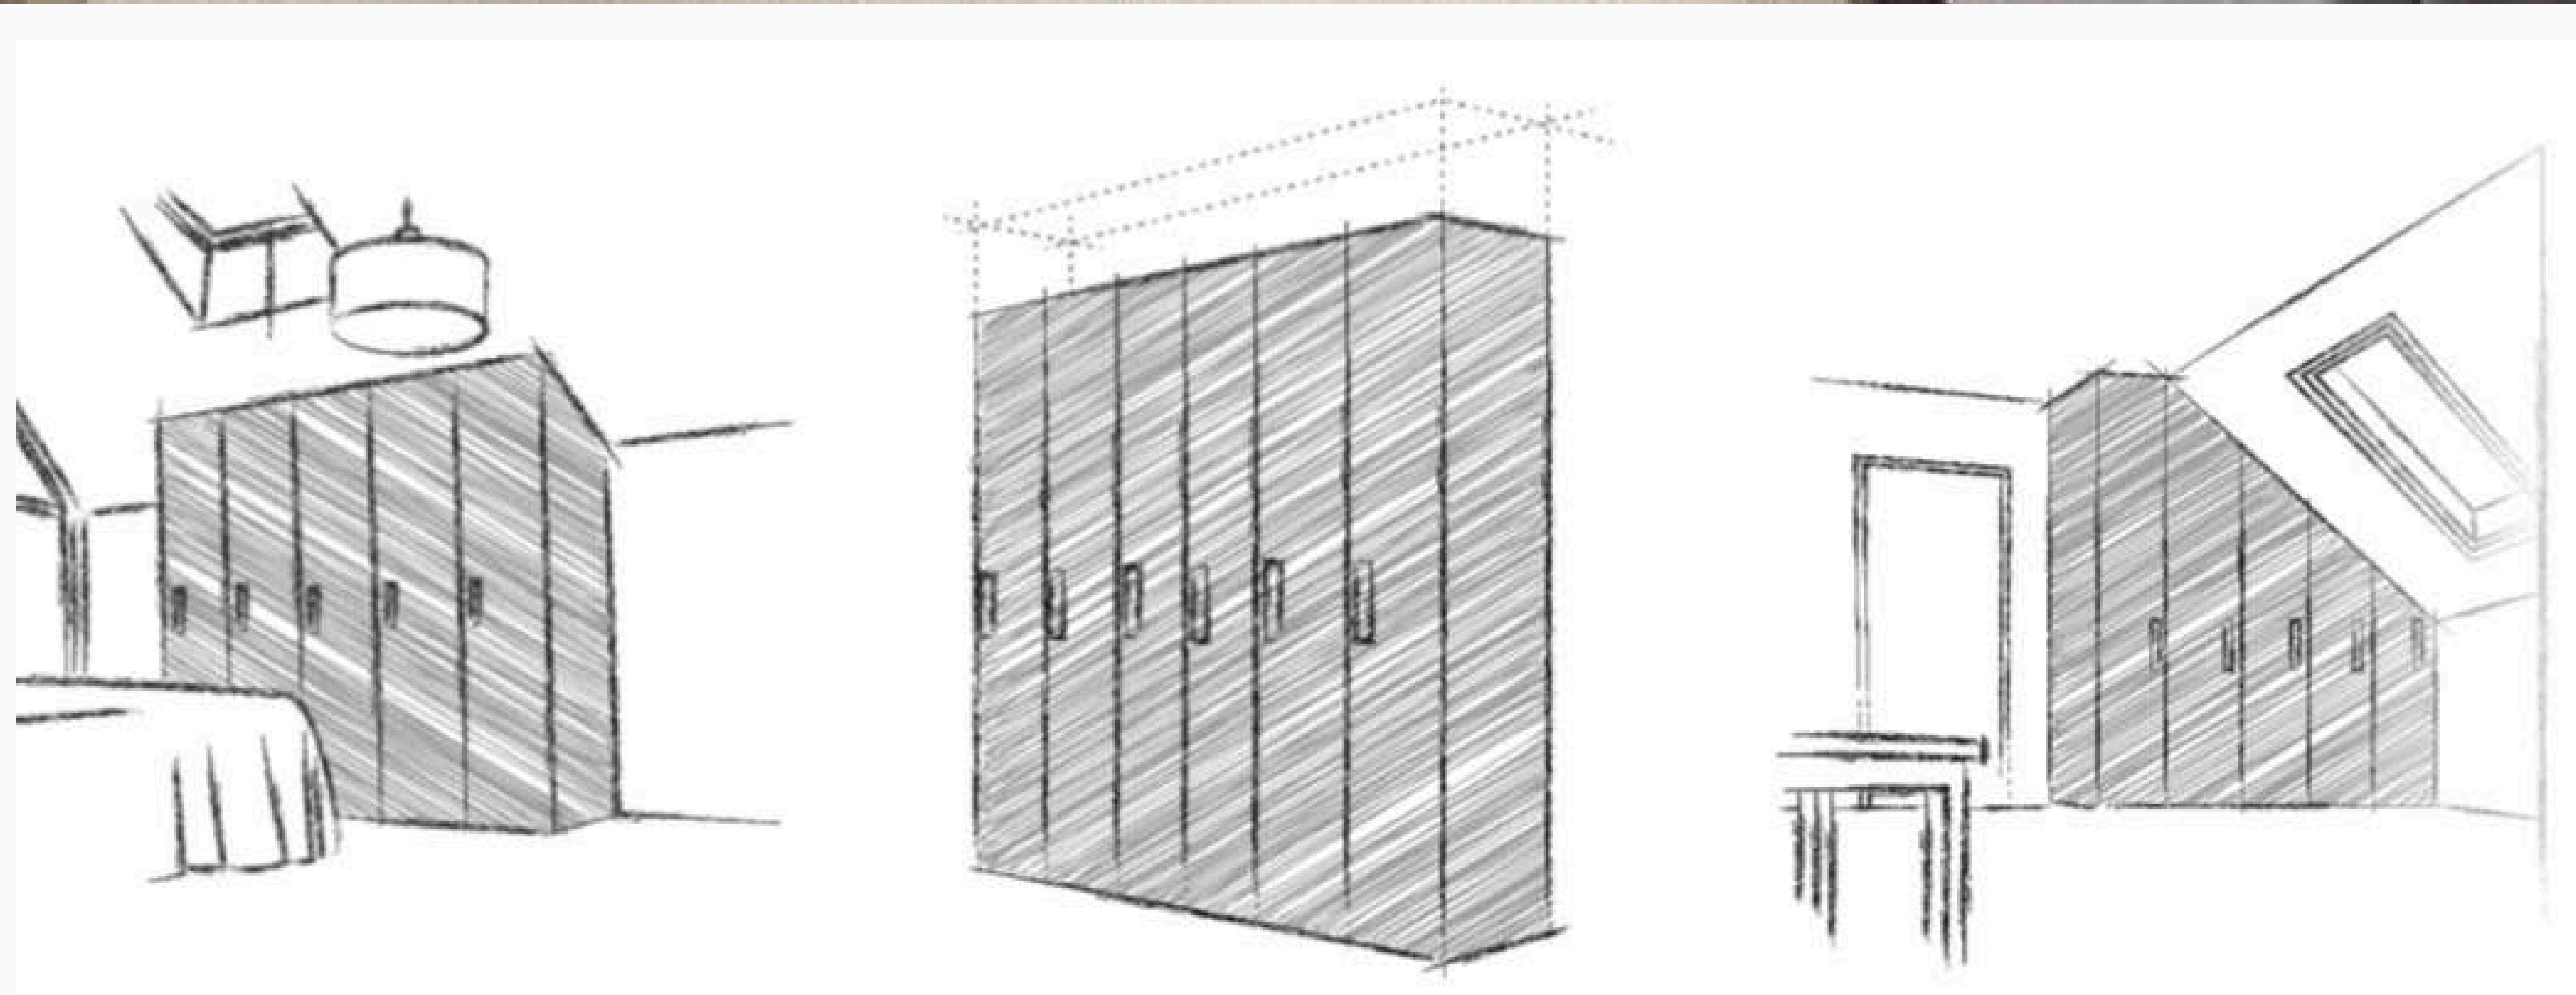

OPTION "I"

Experience the ultimate in customization with our innovative 'Option I' technology.

This flexibility allows for a true custom fit, as we can adjust the height, width, shape and depth of each unit to seamlessly integrate with your unique room dimensions. This ensures a perfect fit and maximizes the available space, resulting in a bespoke and functional storage solution.

2. Open hanging sections draw the eye in and creates a boutique, hotell-like feel

3. An intergrated dressing table with soft lighting creates a chic look.

4. A central island provides additional storage and creates a premium feel

5. A shoe wardrobe is the ultimate storageaccessory, and completes the luxury wardrobe aesthetic

Boot Room

Hallway storage and boot room cabinetry have experienced a surge in popularity, reflecting a growing emphasis on both functionality and aesthetics within the home.

Homeowners are increasingly recognizing the importance of well-organized entryways. Hallways, often overlooked, can become chaotic dumping grounds for shoes, coats, bags, and other everyday items. Custom-designed cabinetry provides a stylish and practical solution, offering dedicated storage for each item and creating a sense of order and calm.

Similarly, boot rooms have evolved from purely functional spaces to stylish extensions of the home. They now serve as a transition zone between the outdoors and indoors, offering a place to shed wet gear, store outdoor equipment, and create a welcoming first impression. Bespoke cabinetry, with features like built-in seating, shoe racks, and coat hooks, enhances both the functionality and aesthetic appeal of this often-neglected space.

This growing trend reflects a desire for homes that are not only beautiful but also highly functional. By investing in thoughtfully designed hallway storage and boot room cabinetry, homeowners can create more organized, welcoming, and enjoyable living spaces.
